

THE APESHIT COALITION

WE REMAIN ON CHAIN.

\$APESHIT · Robinhood Chain · October 2026

LAUNCH ON ROBINHOOD

GOING APESHIT ON ROBINHOOD CHAIN.

We intentionally chose Robinhood Chain because we believe it will be well positioned to welcome in a whole new crowd of memecoin fanatics now and in the future. We intend to claim our place as the first and only elite ape themed memecoin on the chain. There are many cats, dogs, frogs, and birds, but RH seems to be missing one of crypto's most important personas.

The Coalition fully intends to become the premier ape representative of Robinhood Chain.

THE NARRATIVE

ONE SHARED CREATION STORY.

The degen sector of this space is pure chaos. It's not for everyone. If you've been around long enough, you've experienced many rug pulls, leverage liquidations, and market manipulation at scale. And you've probably paper handed massive runners and bought the tops of charts you shouldn't have. But you've also learned a lot, made friends, and experienced the excitement that comes with being early. *This is our shared experience.* **This is our story.** And it is one that 90% of the world's population will never understand.

Despite all of the negative aspects that would turn any reasonable person away instantly - we are **STILL HERE.**

The Coalition is the personification of the ones who stayed. Still on chain. Still locked in... **WE REMAIN.**

THE VISION

MORE THAN MEMES. BUILDING THE NEXT CULT BRAND.

We are building community + coin around a story. But we are building a *brand* around the personification of the story, and what it means to be one of the few who understand and thrive in this space.

The character and the story are designed as a foundation to build a brand on top of. Some of our plans for the project include expanding into IRL apparel line, animated shorts, comics, NFTs, and online games. None of this is promised because it will depend on the success of the meme coin as the foundation, but the vision is clear, and the potential is very real.

ETHOS

DIFFERENT PLACES SAME RABBIT HOLE

We all came here from different places for different reasons and fell down the same rabbit hole. It doesn't matter what country you live in. It doesn't matter if you are rich or poor. It doesn't make a difference what generation you are a part of. We are all united together by a shared story - one that surely resonates with anyone who's been in the space longer than a few months.

After witnessing and being a part of all the chaos, if you're **STILL HERE**, you're probably already a member of The Coalition. You just have to walk through the door and introduce yourself.

WE REMAIN.

VISIBILITY INITIATIVES

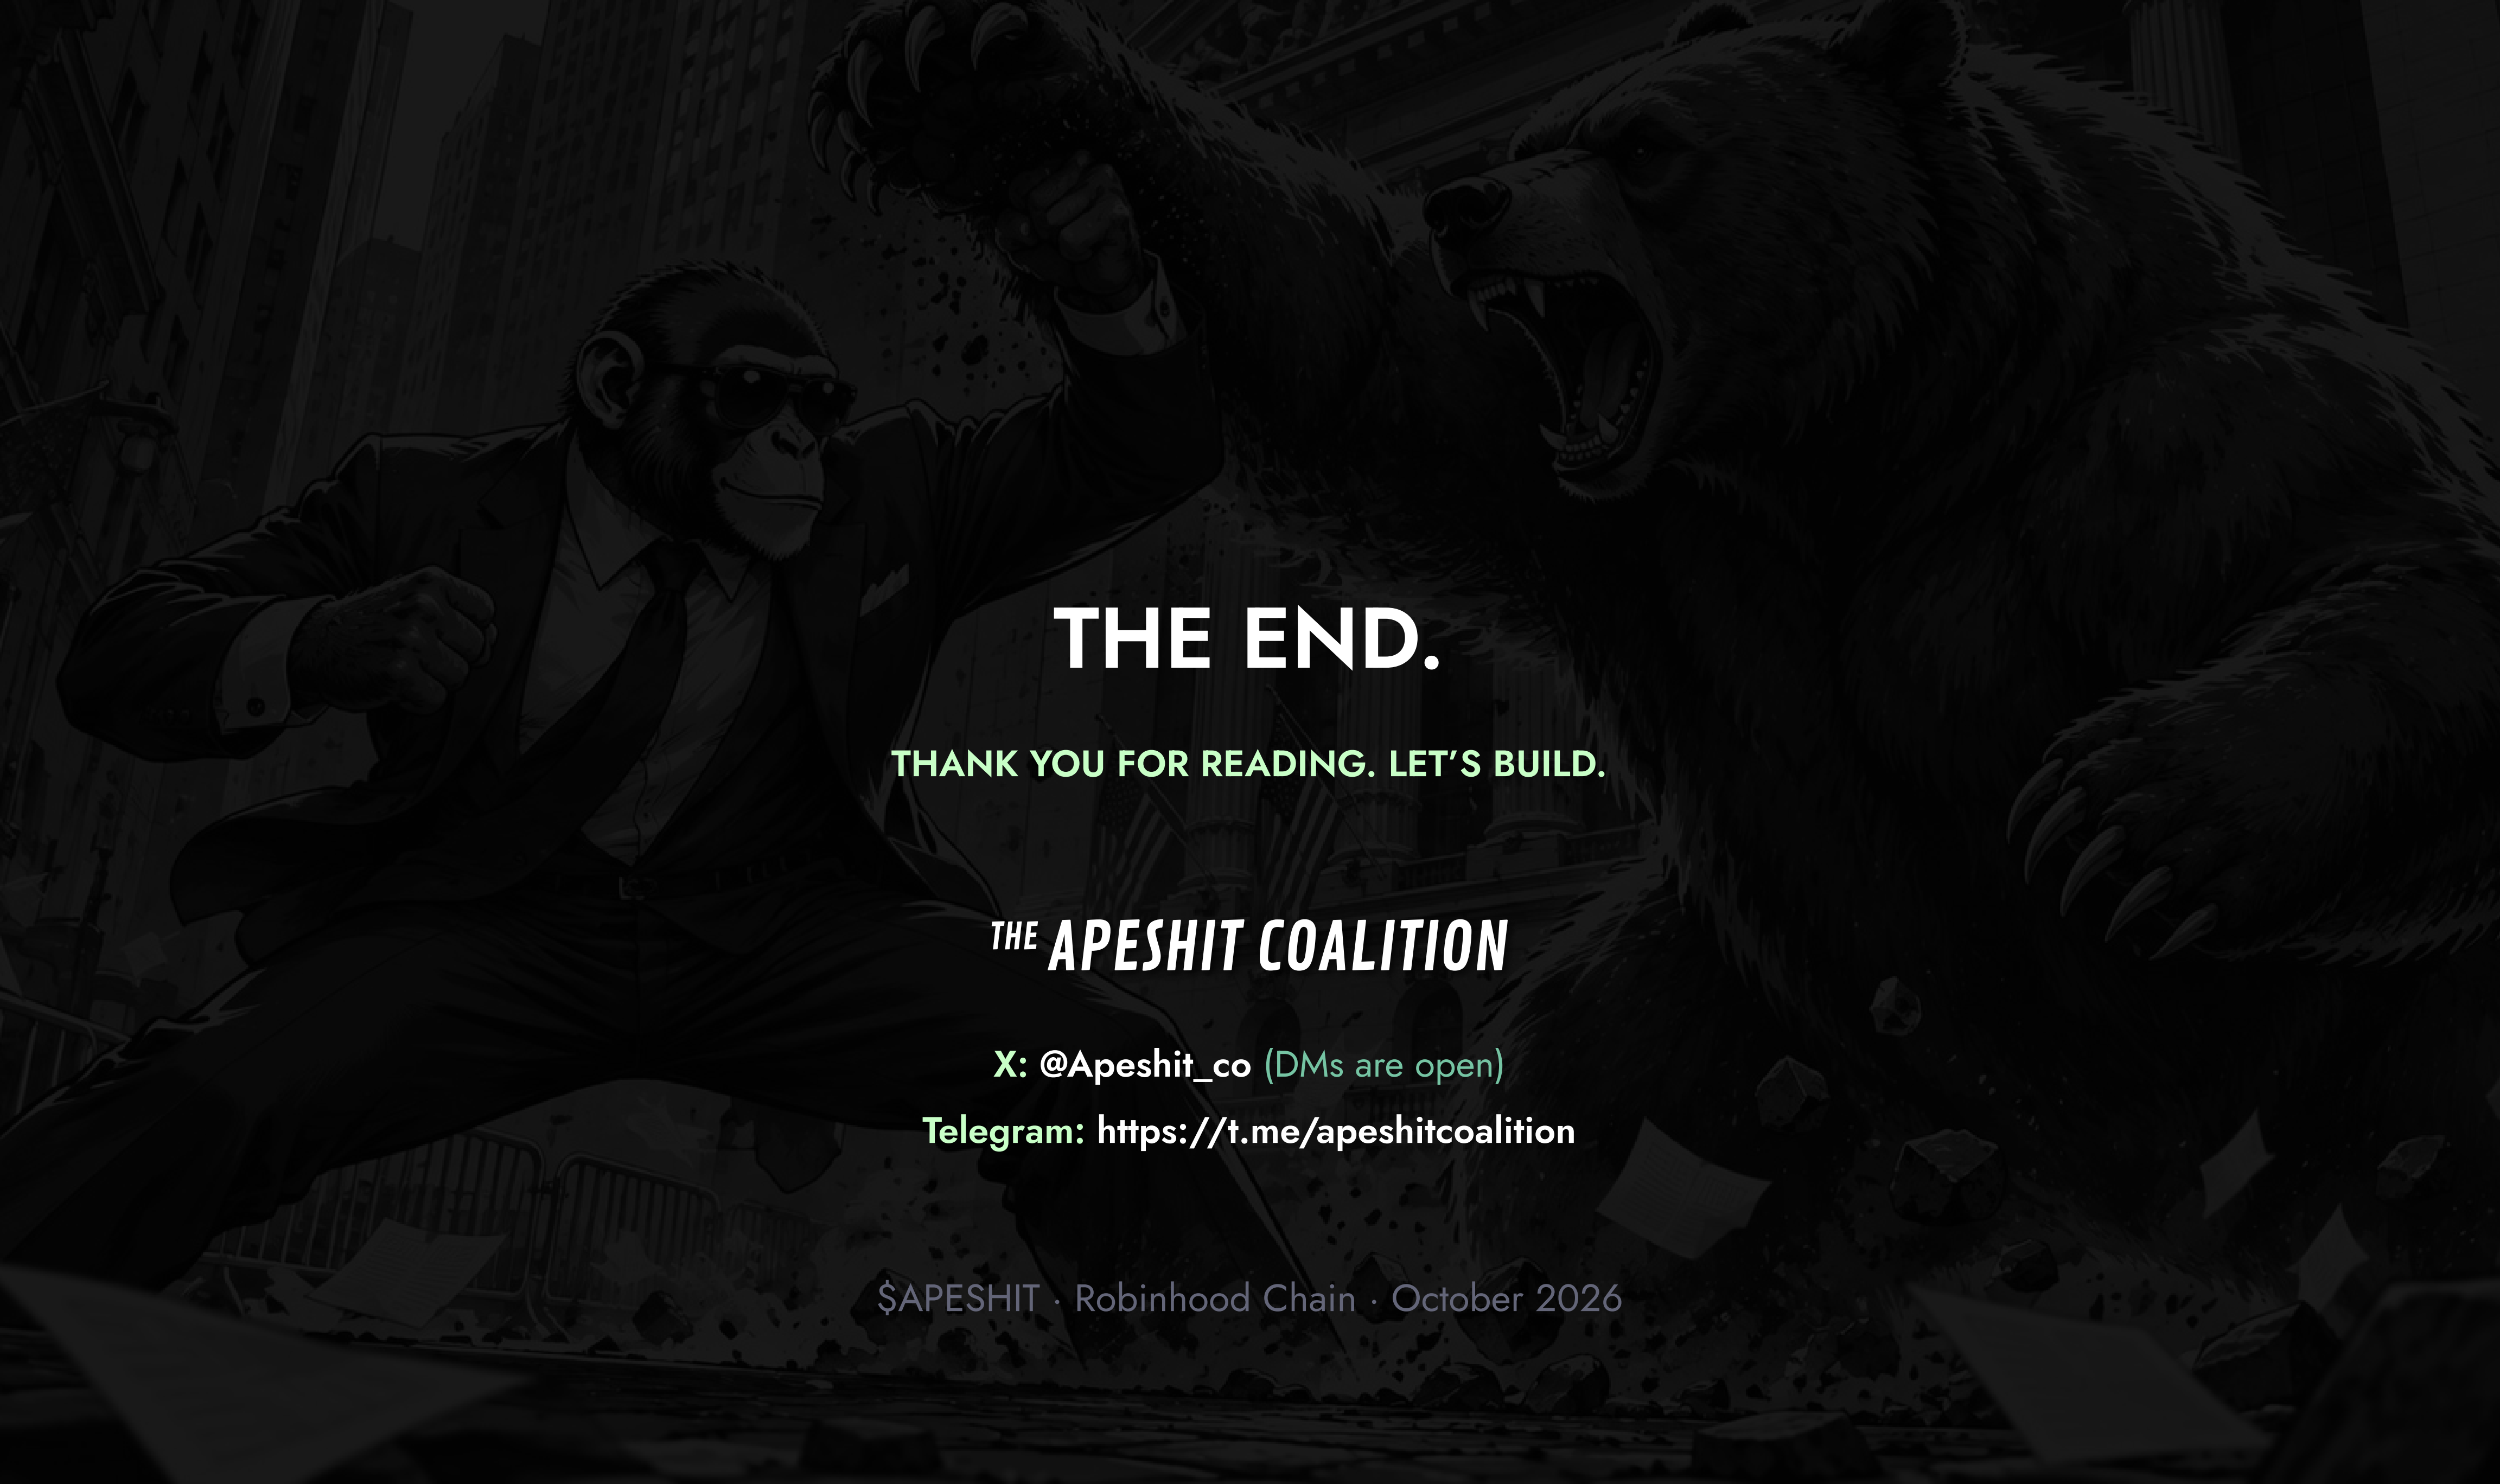

PARTNERSHIPS AND APPEARANCES

We are actively seeking opportunities for partnerships and appearances within the memecoin and Robinhood ecosystems. We would be glad to collaborate on media projects or appear on relevant X spaces.
